

ANIL MAKHIJA

Senior iOS Engineer | SwiftUI • IoT • Energy & Consumer Apps

📍 Bengaluru, India • 📞 9510473437 • 🔗 [LinkedIn](#) • ✉️ makhija61@gmail.com

SUMMARY

Senior iOS Lead Engineer with 11+ years of experience delivering scalable, high-performance mobile solutions across IoT, energy, healthcare, and consumer domains. Expert in Swift, SwiftUI, Combine, MVVM, BLE, WiFi, and real-time device integrations. Proven leader in building and scaling consumer and installer apps, driving performance optimization, offline-first architectures, CI/CD automation, and Agile delivery for mission-critical mobile platforms

SKILLS

- **Languages & Frameworks & Design Architectures** : Swift, SwiftUI, Combine, React Native, Unity, Objective-C, Cordova, MVC, MVVM, MVP, Singleton, RxSwift.
- **Technologies**: BLE, WiFi, REST APIs, WebSocket, Offline Control Features(SQLite, Core Data, Realm), Unit Testing, Firebase, UIKit, Core Animation, Auto Layout, Core Data, Cloud Integration (Firebase, AWS basic), OTA update workflows, MQTT.
- **Tools**: Xcode, Instruments, Git, CI/CD (Fastlane), Postman, Jira, Agile Methodologies, Firebase, Visual Studio, Scrum, SDLC Optimization
- **Domains**: Energy Monitoring, Health Tech, IoT/Connected Devices, Mobile App Development, UI/UX Design
- **Soft Skills**: Leadership, Collaboration, Technical Architecture, Analytical, Communication, Team Mentoring, Stakeholder Collaboration, Chapter Leadership, Governance & Risk Management, SDLC Optimization, Mentoring & Performance Reviews

WORK EXPERIENCE

Senior Software Engineer IOT – SMA Solar Technology
Projects worked : SMA Energy App , SMA 360° App

Jul 2025 - Dec 2025
Bangalore, India

Developed [SMA Energy app](#) (user) using SwiftUI, Combine, and MVVM for PV monitoring, energy forecasting, and EV charging, integrating real-time data from Sunny Portal to optimize energy usage.
Built [SMA 360° app](#) (installer) with QR-based onboarding, multi-device discovery (up to 5 inverters), and system configuration UI, reducing setup and commissioning time by ~40%. Streamlined Sunny Portal registration, user invitations, and app onboarding workflows for both consumer and installer experiences.
Delivered high-performance, scalable UI components and real-time IoT integrations for seamless energy system control.

Lead Consultant , EncoralInnovation Lab Private Limited
Client : Enphase Energy

Aug 2022 - Jun 2025
Bangalore, India

- Directed a 6-member team to build the [Enphase Enlighten app](#) with Swift, SwiftUI, and MVVM, increasing energy monitoring engagement by 25% for 50,000+ users while mentoring juniors through code reviews, design reviews, and over-the-shoulder debugging.
- Built BLE, WiFi, WebSocket integrations for real-time IoT communication, cutting connectivity issues 30% with thread-safe code & Core Data offline sync.
- Enhanced architecture (MVC/MVVM), improving app performance 20% using SwiftUI, UIKit, Auto Layout, and Core Animation optimizations.
- Implemented RxSwift to streamline async workflows, reducing UI-blocking tasks 30%.
- Integrated Firebase for analytics, notifications, and retention improvements.
- Automated CI/CD with Fastlane, adding quality checks and performance benchmarks.
- Led coding standards, peer reviews, and capability-building across mobile teams.
- Partnered with product teams on risk, compliance, and performance planning.

Software Engineer, Legato Health Technologies

Aug 2020 - Jul 2022

Projects worked : Sydney Health,

Bangalore, India

- Created the [Sydney Health app](#) using React Native and SwiftUI with MVVM, boosting patient engagement by 15% for 10,000+ users with refined UI/UX.

Senior Software Engineer, UST

Jan 2020 - Aug 2020

Client : Legato Health Technologies

Bangalore, India

- Oversaw iOS development for 3 features with MVVM, completing 100% of milestones 2 weeks early and enhancing UI responsiveness by 10%.
- Worked with 3 UX designers to polish interfaces for 2 apps, raising user satisfaction by 10% through SwiftUI upgrades.
- Implemented unit and UI testing (XCTest, XCTest) to ensure app quality for 10,000+ users.

Software Engineer, Synoverge Technologies Pvt. Ltd.

Dec 2016 - Nov 2019

Projects worked : VFS Global, Roquette

Ahmedabad, India

- Launched 10+ mobile apps, including [Roquette app](#), with 3 active on the App Store, slashing load times by 30% using Swift, early SwiftUI architecture.
- Executed end-to-end development of 4 apps over 12 months, improving user satisfaction by 20% with Agile, and MVVM design.
- Enhanced performance for 5+ projects using Swift, and MVC, lifting retention rates by 15% through UI/UX upgrades.

Sr. iOS Developer, AIS Technolabs Pvt Ltd

Oct 2015 - Nov 2016

Ahmedabad, India

- Merged Unity code into 5+ iOS apps with MVC and user engagement by 15% with Swift.
- Explored and integrated 3 iOS technologies (e.g., CoreML), increasing functionality and engagement by 18% across 5 projects.

iOS App Developer, Techseria

Aug 2014 - Sep 2015

Ahmedabad, India

- Built 8 mobile apps, including Pinkfluence, overseeing full lifecycle and driving a 20% user adoption increase post-launch.
- Delivered scalable solutions for 6 apps serving 10,000+ users, reducing update downtime by 30% with Git and CI/CD.

EDUCATION

Master of Computer Applications (M.C.A.)

Aug 2011 - May 2014

Hemchandracharya North Gujarat University

- Focus Areas: Programming Languages and Mobile Application Development
-

HONORS & AWARDS

- **Encora Inc – Extraordinary Client Service (2025):** Honored for delivering exceptional service and exceeding client expectations on high-impact iOS projects
- **Encora Inc - Living Our Values (Mar 2023):** Recognized for leadership and technical excellence in iOS app innovation.
- **Legato Health Technologies - GoAbove (Team Player) (May 2022):** Awarded for outstanding collaboration in mobile app projects.
- **Legato Health Technologies - GoAbove Impact Award (Mar 2022):** Honored for significant impact through innovation in iOS development.
- **Legato Health Technologies - GoAbove (Individual Contributor) (Apr 2021):** Recognized for
